First Time Filers Quick Reference Guide

On February 21, 2023, the Department of the Treasury and the Internal Revenue Service published final regulations reducing the threshold for filing returns and other documents electronically (e-file). These regulations require filers of 10 or more information returns in a calendar year beginning in 2024, tax year 2023, to file those information returns electronically. Corrected information returns MUST be filed electronically if the original return was submitted electronically. Corrected information returns are not counted when calculating the aggregate number of information returns to determine if you are required to file electronically. For more information about the regulations and the reduced threshold to electronically file, refer to the [IRS and Treasury's final regulations on e-file](#) and the [Filing Information Returns Electronically \(FIRE\)](#) webpages.

If you are new to electronic filing, you may want to consider using the new Information Returns Intake System (IRIS). For more information, please visit <https://www.irs.gov/iris>.

To obtain a TCC to file information returns electronically on the Filing Information Returns Electronically (FIRE) System, go to Information Returns (IR) Application for Transmitter Control Code (TCC) on the FIRE webpage located at <https://www.irs.gov/e-file-providers/filing-information-returns-electronically-fire>.

Submit an IR Application for TCC by November 1st of the year before information return(s) are due to ensure you're ready to electronically file. Allow 45 days for processing. An IR Application for TCC received after November 1st may not be processed in time to meet your electronic filing needs. All IR Applications for TCC are subject to review before the approval to transmit returns electronically is granted and the IRS may request additional information to process the request. Approved applications will be assigned a TCC. If you don't want to wait for the letter sent (via U.S. Postal Service) to the mailing address provided on your application, monitor your IR Application Summary page to view your assigned TCC. Generally, your TCC will be available for use on the FIRE System 48 hours from the effective date shown your application. If the IRS finds the electronically transmitted documents are invalid, the IRS has the authority to revoke the TCC and stop the release of files. Refer to [Part B. Sec. 1, Information Returns \(IR\) Application for Transmitter Control Code \(TCC\)](#).

File Format – The format must conform to the specifications found in [Part C. Record Format Specifications and Record Layouts](#). To transmit files electronically through FIRE, you must have software, a service provider, or an in-house programmer that will create the file in the proper format per the requirements and record layouts in this publication. To find software providers, perform an internet search with the keywords, "Form 1099 software providers." Scanned, .PDF, .PNG, .TIF, .GIF, .JPG, Word, or Excel formats will not be accepted.

Test Files – Filers are not required to submit a test file; however, the IRS encourages the submission of a test file for all new electronic filers to test hardware and software. The test system is restricted to no more than 125 test files per year. Refer to [Part B. Sec. 5, Test Files](#). A test file is needed only when applying to participate in the Combined Federal/State Filing Program. Refer to [Part A. Sec. 12, Combined Federal/State Filing Program](#).

Note: The FIRE Production System and FIRE Test System don't communicate. You must create and keep a separate FIRE Account for each FIRE Account System.

Common Problems - Review [Part B. Sec. 6, Common Problems](#), to avoid common FIRE Account processing or formatting errors before submitting your file. Only one TCC is required if you're only filing Forms 1097, 1098, 1099, 3921, 3922, 5498, and W-2G. The TCC is used to catalog files as they are received. The forms listed in Publication 1220 require a single TCC. There is no need to request an additional TCC.

Assistance - Contact the Technical Services Operation (TSO) Monday through Friday 8:30 a.m. – 5:30 p.m. ET. **Listen to all options before making your selection.**

Sec. 2 Purpose

The purpose of this publication is to provide the specifications for filing of Forms 1097, 1098, 1099, 3921, 3922, 5498, and W-2G electronically with the IRS including the requirements and specifications for electronic filing under the Combined Federal/State Filing (CF/SF) Program. Additionally, this publication provides specifications to submit an automatic 30-day extension of time to file certain information returns.

Note: Generally, boxes on paper forms correspond with fields used for the electronic file; however, if the form and field instructions don't match, the guidance in this publication supersedes form instructions. Electronic reporting of information returns eliminates the need for electronic filers to file paper documents with the IRS. Don't send copies of paper forms to the IRS for any forms filed electronically. This will result in duplicate filing and may result in penalty notices.

The FIRE System can accept multiple files for the same type of return. For example, if a company has several branches issuing Forms 1099-INT, it is not necessary to combine all the forms into one transmission. Each file can be sent separately. Don't transmit duplicate data.

Note: Issuers are responsible for providing statements to payees as outlined in the [General Instructions for Certain Information Returns](#).

Sec. 3 What's New for Tax Year 2024

Updates to Publication 1220 after its annual release will be listed in [Part E. Exhibit 2](#), Publication 1220 Tax Year 2024 Revision Updates.

1. [Treasury Decision \(TD\) 9972](#) amended the rules for filing information returns electronically. The updated regulations mandate that businesses electronically file 10 or more returns of any form type. For instance, information returns processed through the Information Return Intake System (IRIS), Filing Information Returns Electronically (FIRE) System, Affordable Care Act Information Returns (AIR) System, and Form W-2 submissions to the Social Security Administration (SSA) all fall within the same form type category. The total count includes scenarios like four Form 1099-NEC filings via IRIS, two Form 1042-S filings via FIRE, two Form 1095-B filings via AIR, and two Form W-2 filings via SSA. Since the total of all forms filed equals ten, the customer is required to file all information returns electronically. Corrections are not factored into this calculation; however, if an information return is submitted electronically, associated corrections must also be filed electronically using the same system used for the original filing.
2. Starting in tax year 2024, you can use [Form 15397](#), Application for Extension of Time to Furnish Recipient Statements, to request a one-time 30-day extension to furnish copies of statements to recipients. Refer to [Sec. 8 Extensions](#).
3. Issuers/transmitters are strongly recommended to keep a copy of FIRE System file status emails and the associated files of the information returns or be able to reconstruct the data for at least three years from the reporting due date with the following exceptions:
 - Returns reporting federal withholding need to be retained for four years.
 - Keep a copy of Form 1099-C, Cancellation of Debt, for at least four years from the due date of the return.
4. The test system will only allow 125 test files per year.
5. The new combined federal state code for Rhode Island is 44.

Sec. 4 Communicating with the IRS

TSO is available to issuers, transmitters, and employers at the numbers listed below. When you call, you'll be provided guidance to essential elements pertaining to technical aspects for the new IR Application for TCC, filing information returns through the FIRE Systems, self-help resources, and referrals to tax law topics on [IRS.gov](https://www.irs.gov). Below are some examples of essential elements:

- Form identification
- How to obtain a form
- Related publications for a form or topic
- Filing information returns electronically
- FIRE file status information and guidance

To send files using the FIRE System go to <https://fire.irs.gov/>. To send test file(s) using the FIRE Test System go to <https://fire.test.irs.gov/>.

Caution: Actual live data must never be sent through the FIRE Test System.

Questions regarding the filing of information returns and comments/suggestions regarding this publication can be emailed to fire@irs.gov. When you send emails concerning specific file information, include the company name and the electronic file name or Transmitter Control Code (TCC). Don't include tax identification numbers (TINs) or attachments in email correspondence because electronic mail is not secure.

Sec. 6 Filing Requirements, Retention Requirements, and Due Dates

.01 Filing Requirements

For instructions regarding Forms 1097, 1098, 1099, 3921, 3922, 5498, and W-2G, refer to the [General Instructions for Certain Information Returns](#). The instructions include additional information about filing requirements, paper filing, and line instructions.

[Treasury Decision \(TD\) 9972](#) amended the rules for filing information returns electronically. The updated regulations mandate that businesses electronically file 10 or more returns of any form type. For instance, information returns processed through the Information Return Intake System (IRIS), Filing Information Returns Electronically (FIRE) System, Affordable Care Act Information Returns (AIR) System, and Form W-2 submissions to the Social Security Administration (SSA) all fall within the same form type category. The total count includes scenarios like four Form 1099-NEC filings via IRIS, two Form 1042-S filings via FIRE, two Form 1095-B filings via AIR, and two Form W-2 filings via SSA. Since the total of all forms filed equals ten, the customer is required to file all information returns electronically. Corrections are not factored into this calculation; however, if an information return is submitted electronically, associated corrections must also be filed electronically using the same system used for the original filing. For more information about the regulations and the reduced threshold to electronically file, refer to the [IRS and Treasury's final regulations on e-file](#) and the [Filing Information Returns Electronically \(FIRE\)](#) webpages.

If you're required to file electronically, and this requirement causes an undue hardship, see [Part A. Sec 9, Form 8508, Application for a Waiver from Electronic Filing of Information Returns](#). If you're required to file electronically, but fail to do so, and you don't have an approved waiver, you may be subject to a penalty. For more information, see part F in the [General Instructions for Certain Information Returns](#).

.02 Retention Requirements

Issuers/Transmitters are strongly recommended to keep a copy of FIRE System file status emails and the associated files of the information returns or be able to reconstruct the data for at least three years from the reporting due date with the following exceptions:

- Returns reporting federal withholding need to be retained for four years.
- Keep a copy of Form 1099-C, Cancellation of Debt, for at least four years from the due date of the return.

.03 Due Dates

Forms 1097, 1098, 1099, 3921, 3922, and W-2G are filed on a calendar year basis. Form 5498, IRA Contribution Information, Form 5498-ESA, Coverdell ESA Contribution Information, and Form 5498-SA, HSA, Archer MSA, or Medicare Advantage MSA Information, are used to report amounts contributed during or after the calendar year but no later than April 15.

Sec. 6 Filing Requirements, Retention Requirements, and Due Dates (continued)

Due Dates		
Form	IRS Electronic Filing	Recipient/Participant Copy
1097-BTC	March 31	On or before the 15th day of the 2nd calendar month after the close of the calendar quarter (on or before May 15, August 15, November 15, and February 15 of the following year).
1098	March 31	January 31
1099	March 31	January 31 February 15 for Forms 1099-B and 1099-S. This also applies to statements furnished as part of a consolidated reporting statement.
1099-MISC	March 31	January 31 February 15 for amounts reported in boxes 8 or 10.
1099-NEC	January 31	January 31
3921	March 31	January 31
3922	March 31	January 31
5498	May 31	January 31 – for FMV/RMD May 31 – for contributions
5498-SA	May 31	May 31
5498-ESA	May 31	April 30
W-2G	March 31	January 31

Note: If any due date falls on a Saturday, Sunday, or legal holiday, the return or statement is considered timely if filed or furnished on the next business day. Leap years don't impact the due date. See Announcement 91-179, 1991-49 I.R.B. 78, for more information.

Sec. 7 Reporting Nonemployee Compensation (NEC) for Tax Year 2024

Use Form 1099-NEC, Nonemployee Compensation, to report nonemployee compensation. A request for an extension of time to file can be submitted on paper **Form 8809**, Application for Extension of Time to File Information Returns. Refer to **Part A Sec. 8, Extensions**. Form 1099-NEC is part of the CF/SF Program.

Use Form 1099-MISC to report nonemployee compensation prior to tax year 2020.

Publication 1220 provides the record layouts to electronically file Form 1099-NEC and Form 1099-MISC.

Sec. 8 Extensions

An automatic 30-day extension of time to file certain information returns may be submitted by creating and transmitting an electronic file or fill-in form on the **FIRE webpage**, or submitting a paper **Form 8809**, Application for Extension of Time to File Information Returns.

Additional information can be found on the FIRE webpage located at <https://www.irs.gov/e-file-providers/filing-information-returns-electronically-fire>.

You may request an extension of time to furnish the statements to recipients by faxing [Form 15397, Application for Extension of Time to Furnish Recipient Statements](#) to:

Internal Revenue Service Technical Services Operation
Attn: Extension of Time Coordinator
Fax: 877-477-0572 (International Fax: 304-579-4105)

Your request must be received no later than the date on which the statements are due to the recipients. If your request for an extension is approved, generally you will be granted a maximum of 30 extra days to furnish the recipient statements.

Refer to **Part D Extension of Time**.

Sec. 9 Form 8508, Application for a Waiver from Electronic Filing of Information Returns

For information on **Form 8508**, Application for a Waiver from Electronic Filing of Information Returns, refer to the FIRE webpage at <https://www.irs.gov/e-file-providers/filing-information-returns-electronically-fire>.

Sec. 10 Penalties Associated with Information Returns

Refer to **General Instructions for Certain Information Returns** for additional information on penalty specifications and guidelines.

Sec. 11 Corrected Returns

.01 General Information

If the IRS successfully processed an information return, and you identify an error with the file, and more than 10 calendar days have passed since the IRS accepted the file, and it is in "Good" status, you need to file a corrected return using the FIRE System. Don't file the original file again as this may result in duplicate reporting. File only the returns that require corrections. Don't include information returns that were not included in the original file as corrections. Information returns not included in the initial filing must be submitted as an original file.

Note: The standard correction process will not resolve duplicate reporting. Complete all fields of the corrected return.

Sec. 11 Corrected Returns (continued)

If an information return is submitted electronically the associated corrections must also be filed electronically using the same system used to file the information return being corrected.

The issuer or transmitter must furnish corrected statements to recipients as soon as possible. If an issuer or transmitter discovers errors that affect numerous recipients, contact the Technical Services Operation (TSO) Monday through Friday 8:30 a.m. – 5:30 p.m. ET. **Listen to all options before making your selection.**

- 866-455-7438 (toll-free)
- 304-263-8700 (International) (Not toll-free)
- Deaf or hard of hearing customers may call any of our toll-free numbers using their choice of relay service.

Send corrected returns to the IRS and notify the recipients.

If corrected returns aren't filed electronically, they must be filed on official forms or acceptable substitute forms. For information on substitute forms, refer to **Publication 1179**, General Rules and Specifications for Substitute Forms 1096, 1098, 1099, 5498, and Certain Other Information Returns.

In general, corrected returns should be submitted for returns filed within the last three calendar years with the following exceptions:

- Backup withholding was imposed under Internal Revenue Code Section 3406 - four calendar years
- Form 1099-C, Cancellation of Debt - four calendar years

.02 Error in Reporting the Issuer

If an error is discovered in reporting the issuer's (not recipient) name and/or TIN, the issuer should write a letter to the IRS containing the following information:

- Name and address of issuer
- Type of error (include the incorrect issuer name/TIN that was reported)
- Tax year
- Correct issuer name/TIN
- TCC
- Type of return
- Number of payees
- Filing method, paper or electronic
- If federal income tax was withheld

Mail correspondence to:

Internal Revenue Service
230 Murall Drive, Mail Stop 4360
Kearneysville, WV 25430

Sec. 11 Corrected Returns (continued)

.03 Specifications for Filing Corrected Returns Electronically

The record sequence for filing corrections is the same as for original returns. Refer to [Part C. Record Format Specifications and Record Layouts](#), for more information. Corrected returns may be included in the same transmission as original returns; however, separate 'A' Records are required.

The "B" Record provides a 20-character field for a unique issuer's Account Number for payee. The account number is required if there are multiple accounts for a recipient for whom more than one information return of the same type is being filed. This number will identify the incorrect return if more than one return is filed for a particular payee. Don't enter a TIN in this field. An issuer's account number for the payee may be a checking account number, savings account number, serial number, or any other number assigned to the payee by the issuer that will distinguish the specific account. This number must appear on the initial return and on the corrected return for the IRS to identify and process the correction properly.

Errors normally fall under one of the two categories listed. Next to each type of error is a list of instructions on how to file the corrected return. Review the charts that follow.

All corrections properly coded for the CF/SF Program will be made available to the participating states. Only send corrections which affect the federal reporting or affect federal and state reporting. **Corrections that apply only to a state filing requirement should be sent directly to the state.**

.04 Corrections and Penalties

File corrected returns to comply with filing requirements. Refer to [General Instructions for Certain Information Returns](#).

.05 Corrected Returns Procedures

There are numerous types of errors, and in some cases, more than one transaction may be needed to correct the initial error. Review the "One-transaction Correction" and "Two-transaction Correction" tables below before transmitting a corrected file.

Note: Some software does not support the correction process. Please contact your software provider for more information.

Sec. 11 Corrected Returns (continued)

One-transaction Correction	
<p>If ... The original return was filed with one or more of the following error types:</p> <ol style="list-style-type: none"> Incorrect payment amount codes in the Issuer "A" Record. Incorrect payment amounts in the Payee "B" Record. Incorrect code in the distribution code field in the Payee "B" Record. Incorrect payee indicator. (Payee indicators are non-money amount indicator fields found in the specific form record layouts of the Payee "B" Record between field positions 544-748.) Return should not have been filed. <p>Note: To correct a TIN and/or payee name, follow the instructions under Two-transaction correction.</p>	<p>Then ... Follow the steps below for one-transaction correction:</p> <ol style="list-style-type: none"> Prepare a new file. The first record on the file will be the Transmitter "T" Record. Make a separate "A" Record for each type of return and each issuer being reported. Issuer information in the "A" Record must be the same as it was in the original submission. The Payee "B" Records must show the correct record information as well as a Corrected Return Indicator Code of "G" in field position 6. Corrected returns using "G" coded "B" Records may be on the same file as original returns; however, separate "A" Records are required. Prepare a separate "C" Record for each type of return and each issuer being reported. The last record on the file must be the End of Transmission "F" Record.

Sample File layout for One-transaction Corrections					
Transmitter "T" Record	Issuer "A" Record	"G" coded Payee "B" Record	"G" coded Payee "B" Record	End of Issuer "C" Record	End of Transmission "F" Record

Two separate transactions using both the "G" and "C" codes are required to submit a two-transaction correction. Don't use this correction process for payment amount corrections.

Sec. 11 Corrected Returns (continued)

Two-transaction Correction	
<p>If ... The original return was filed with one or more of the following error types:</p> <ul style="list-style-type: none"> a. No payee TIN (SSN, EIN, ITIN, Qualified Intermediary Employer Identification Number (QI-EIN), Adoption Taxpayer Identification Number (ATIN)) b. Incorrect payee TIN c. Incorrect payee name d. Wrong type of return indicator 	<p>Then ... Follow the steps below for two-transaction correction:</p> <hr/> <p>Transaction 1:</p> <ol style="list-style-type: none"> 1. Prepare a new file. The first record on the file will be the Transmitter "T" Record. 2. Make a separate "A" Record for each type of return and each issuer being reported. The information in the "A" Record will be exactly the same as it was in the original submission. (See Note below). 3. The Payee "B" Records must contain exactly the same information as submitted previously. Exception: Insert a Corrected Return Indicator Code of "G" in field position 6 of the "B" Records and enter "0" (zeros) in all payment amounts. (See Note below.) 4. Corrected returns using "G" coded "B" Records may be on the same file as those returns filed with a "C" code; however, separate "A" Records are required. 5. Prepare a separate "C" Record for each type of return and each issuer being reported. <p>Note: Although the "A" and "B" Records will be exactly the same as the original submission, the Record Sequence Number will be different because this is a counter number and is unique to each file. For Form 1099-R corrections, if the amounts are zeros, certain indicators will not be used.</p> <hr/> <p>Then ... Follow the steps below for two-transaction correction:</p>

Corrected returns filed with the IRS using "C" coded "B" Records may be on the same file as those returns submitted with "G" codes; however, separate "A" Records are required. 3. Prepare a separate "C" Record for each type of return and each issuer being reported. <p>The last record on the file must be the End of Transmission "F" Record.</p>

Note: If a filer is reporting "G" coded, "C" coded, and/or "non-coded" (original) returns on the same file, each category must be reported under separate "A" Records. Although the "A" Record will be exactly the same as the original submission, the Record Sequence Number may be different because this is a counter number and is unique to each file. For Form 1099-R corrections, if the amounts are zeros, certain indicators will not be used.

Sec. 12 Combined Federal/State Filing (CF/SF) Program

.01 General Information

The CF/SF Program was established to simplify information returns filing for issuers. Through the CF/SF Program, the IRS electronically sends information returns (original and corrected) to participating states.

The following information returns may be filed under the CF/SF Program:

- Form 1099-B, Proceeds from Broker and Barter Exchange Transactions
- Form 1099-DIV, Dividends and Distributions
- Form 1099-G, Certain Government Payments
- Form 1099-INT, Interest Income
- Form 1099-K, Payment Card and Third Party Network Transactions
- Form 1099-MISC, Miscellaneous Information
- Form 1099-NEC, Nonemployee Compensation
- Form 1099-OID, Original Issue Discount
- Form 1099-PATR, Taxable Distributions Received From Cooperatives
- Form 1099-R, Distributions From Pensions, Annuities, Retirement or Profit-Sharing Plans, IRAs, Insurance Contracts, etc.
- Form 5498, IRA Contribution Information

.02 Participation in CF/SF Program

1. State Coordinators Information:

State Coordinators must contact their IRS Government Liaison to request their state be added or removed from the CF/SF Program. Requests must be submitted by January 1st and the request will be implemented the following tax year. For example: To be added to or removed from the CF/SF Program for tax year 2025, the request would need to be submitted by January 1, 2025. Refer to [Combined Federal/State Filing \(CF/SF\) Program State Coordinator Information FAQs](#) on IRS.gov.

Note: Only state coordinators should contact the IRS Government Liaison.

Sec. 12 Combined Federal/State Filing (CF/SF) Program (continued)

2. Transmitter or issuer information:

Test Files: To request approval to participate, an electronic test file coded for this program must be submitted to the FIRE Test System at <https://fire.test.irs.gov>. Refer to **FIRE** webpage for FIRE testing availability dates. If the test file is acceptable, an approval letter will be sent. There is no charge to use the CF/SF Program for approved participants. A test file is only required for the first year a filer participates in the program; however, it is highly recommended a test file be submitted every year. Records in the test and actual file must conform to current procedures and must not contain actual live data. Participating in the CF/SF Program, the filer consents to the IRS disclosure of the return information to the state(s) indicated.

Within two days, the results of the electronic transmission(s) will be sent to the email address provided on the “Verify Your Filing Information” page in the FIRE Test System. If using email-filtering software, configure the software to accept email from fire@irs.gov and irs.e-helpmail@irs.gov. Turn off any email auto replies to these email addresses. During peak filing periods, the timeframe for returning file results may be more than two days.

Note: The test system will only allow 125 test files per year.

If the file is bad, the filer or transmitter must return to <https://fire.test.irs.gov> and select “Check File Status” to determine what errors are in the file. See **Part B. Sec. 2, Connecting to FIRE System**. When a test file is bad, don’t send a replacement file, but continue to send test files until “Good, Federal/State Reporting” file status is received.

Transmitters can call the IRS with questions on the CF/SF Program. Refer to **Part A. Sec. 4, Communicating with the IRS** for contact information.

3. CF/SF Program General Information:

If a payee has a reporting requirement for more than one state, separate “B” Records must be created for each state. Issuers must prorate the amounts to figure out what should be reported to each state. Don’t report the total amount to each state.

Some participating states require separate notification that the issuer is filing in this manner. The IRS acts as a forwarding agent only. It is the issuer’s responsibility to contact the appropriate state(s) for further information. Participating states and corresponding valid state codes are listed below in **Table 1, Participating States and Codes**. The appropriate code must be entered in fields requesting a CF/SF Program code. Don’t use state abbreviations. Each state’s filing requirements are subject to change by the state. It is the issuer’s responsibility to contact the participating state(s) to verify their criteria. Upon submission of the files, the transmitter must be sure of the following:

- All records are correct.
- State Total “K” Record(s) for each state(s) being reported follows the “C” Record.
- Payment amount totals and the valid participating state code are included in the State Totals “K” Record(s).
- The last “K” Record is followed by an “A” Record (if there are more issuers to report) or an End of Transmission “F” Record (if this is the last record of the entire file).

The following table provides codes for participating states in the CF/SF Program.

Table 1: Participating States and Codes*					
State	Code	State	Code	State	Code
Alabama	01	Indiana	18	Nebraska	31
Arizona	04	Kansas	20	New Jersey	34

Sec. 13 State Abbreviation Codes and APO/FPO Addresses

.01 State Abbreviation Codes

The following state and U.S. territory abbreviations are to be used when developing the state code portion of the address fields. This table provides state and territory abbreviations only and does not represent those states participating in the CF/SF Program.

Table 2: State & U.S. Territory Abbreviations					
State	Code	State	Code	State	Code
Alabama	AL	Kentucky	KY	Ohio	OH
Alaska	AK	Louisiana	LA	Oklahoma	OK

Iowa	IA	North Dakota	ND	Wyoming	WY
Kansas	KS	No. Mariana Islands	MP		

See [Part C. Record Format Specifications and Record Layouts](#) for more information on the required formatting for an address.

Filers must adhere to the city, state, and ZIP Code format for U.S. addresses in the “B” Record. This also includes American Samoa, Guam, Northern Mariana Islands, Puerto Rico, and U.S. Virgin Islands.

Sec. 13 State Abbreviation Codes and APO/FPO Addresses (continued)

.02 APO and FPO Addresses

When reporting APO/FPO addresses, use the following format:

EXAMPLE:

Recipient Name	PVT Willard J. Doe
Mailing Address	Company F, PSC Box 100 167 Infantry REGT
Recipient City	APO (or FPO)
Recipient State	AE, AA, or AP*
Recipient ZIP Code	098010100

*AE is the designation for ZIP Codes beginning with 090-099, AA for ZIP Code 340, and AP for ZIP Codes 962-966.

Sec. 14 Definition of Terms

ELEMENT	DESCRIPTION
Issuer	Formally referred to as payer; files information returns electronically for their business, regardless of the number of locations.
Transmitter	Sends electronic information return data directly to the IRS on behalf of a business or individual. May also file information returns for their own business; regardless of the number of locations.
Filer	Any person or entity that files an information return.
Correction	A correction is an information return filed by the filer/transmitter to correct an information return previously filed and successfully processed by the IRS but contained erroneous information.
EIN	A nine-digit employer identification number which has been assigned by the IRS for business federal tax reporting purposes.
Replacement	A replacement is an information return file sent by the filer/transmitter to replace a file that received a bad file status due to errors encountered while processing the filer's original file or correction file.
In-house Programmer	An employee or a hired contract programmer.
Issuer Account Number for Payee	<p>Any number assigned by the issuer to the payee that can be used by the IRS to distinguish between information returns.</p> <ul style="list-style-type: none"> • This number must be unique for each information return of the same type for the same payee. Refer to Part C. Payee "B" Record, Field Positions 21-40. • If a payee has more than one reporting of the same document type, it is vital each reporting have a unique account number. For example, if an issuer has three separate pension distributions for the same payee and three separate Forms 1099-R are filed; three separate unique account numbers are required. • A payee's account number may be given a unique sequencing number, such as 01, 02 or A, B, etc., to differentiate each reported information return. • Don't use the payee's TIN since this will not make each record unique. This information is critical when corrections are filed. • This number will be provided with the backup withholding notification and may be helpful in identifying the branch or subsidiary reporting the transaction. • The account number can be any combination of alpha, numeric, or special characters.

Sec. 1 Information Returns (IR) Application for Transmitter Control Code (TCC)

.01 Information Returns (IR) Application for Transmitter Control Code (TCC)

All transmitters who file information returns electronically are required to request authorization to file electronically. To transmit files electronically through the Filing Information Returns Electronically (FIRE) System, you need a TCC before you can create a FIRE Account on FIRE Test or Production System. Each user is required to create their own FIRE Account for the EIN/TCC. You must use the online IR Application for TCC to obtain a TCC. You must have software, a service provider, or an in-house programmer that will create the file in the proper format per the requirements and record layouts in this publication. **Scanned, .PDF, .PNG, .TIF, .GIF, .JPG, Word, Excel formats will not be accepted.**

Due Date: Submit your IR Application for TCC by November 1st of the year before information return(s) are due to ensure you're ready to electronically file. An IR Application for TCC received after November 1st may not be processed in time to meet your electronic filing needs. Allow 45 days for processing.

.02 Using the Online IR Application for TCC

If you're **new** to electronically transmitting information returns to the Internal Revenue Service (IRS), you must apply for TCCs using the IR Application for TCC located on the **FIRE** webpage.

If your FIRE TCC was issued prior to September 26, 2021, and you have not completed an IR Application for TCC, you will need to submit an application for a new TCC to file for Tax Year 2024.

If you need another form type or an additional TCC you'll need to complete the online IR Application for TCC. A single application can be used to apply for multiple information return form types. See **Publication 5911**, IR Application for TCC Tutorial for more information.

If you're using a third-party to prepare and transmit your information returns to the IRS, you don't need to obtain a TCC.

Complete the IR Application for TCC if your firm or organization is not using a third-party to electronically transmit information returns. The IR Application for TCC contains two separate roles, Transmitter, or Issuer.

- **Transmitter:** A third-party sending the electronic information return data directly to the IRS on behalf of any business. **Note:** If you're transmitting returns for your own company, in addition to transmitting returns on behalf of another business, you don't need both the Transmitter and Issuer role. You can file all returns as a Transmitter.
- **Issuer:** A business filing their own information returns regardless of whether they are required to file electronically.

Alert: If an organization requires more than one TCC for any given form type, a Responsible Official listed on the application must request the additional TCC through the IR Application for TCC.

Before you can complete the IR Application for TCC, all Responsible Officials and Authorized Delegates, if applicable, in the business or organization must create an online account. Refer to the **FIRE** webpage to access "IR TCC Application for FIRE".

Sec. 1 Information Returns (IR) Application for Transmitter Control Code (TCC) (continued)

.03 Application Approval/Completed

When your IR Application for TCC is approved and completed, a five-character alphanumeric TCC is assigned to your business. An approval letter will be sent via United States Postal Service (USPS) to the address listed on the IR Application for TCC, informing you of your TCC. You can also view your TCC on the IR Application Summary page. The TCC will take 48 hours to be ready for use on FIRE. Allow 45 days for processing. A TCC will not be issued over the telephone or via email. If you don't receive a TCC within 45 days, contact the IRS. Refer to [Part A. Sec. 4, Communicating with the IRS](#).

Electronically filed returns may not be transmitted through FIRE until a TCC has been approved and assigned.

Reminder: You must have software that meets the requirements and record layouts in this publication or a service provider that will create the file in the proper format.

.04 Revise Current TCC Information

As changes occur, you must update the application within 30 days of the change and maintain the IR TCC Application. Access the IR Application for TCC on the [FIRE](#) webpage.

.05 Do I Need More than One TCC?

No. Only one TCC is required if you are only filing Forms 1097, 1098, 1099, 3921, 3922, 5498, and W-2G. The TCC is used to catalog files as they are received. The forms listed in Publication 1220 require a single TCC. There is no need to request an additional TCC.

For example, if you intend to file Forms 1099-INT, submit an IR Application for TCC. If later another type of form will be filed (Forms 1097, 1098, 1099, 3921, 3922, 5498, and W-2G), use the TCC assigned to file Forms 1099-INT. Don't request an additional TCC.

An additional TCC is required for each of the following types of returns. Use the IR Application for TCC located on the FIRE homepage.

- [Form 1042-S](#), Foreign Person's U.S. Source Income Subject to Withholding. Refer to [Publication 1187](#).
- [Form 8027](#), Employer's Annual Information Return of Tip Income and Allocated Tips. Refer to [Publication 1239](#).
- [Form 8955-SSA](#), Annual Registration Statement Identifying Separated Participants with Deferred Vested Benefits. Refer to [Publication 4810](#).

The IRS encourages transmitters who file for multiple issuers to submit one application and use the assigned TCC for all issuers. The purpose of the TCC is to identify the business acting as the transmitter of the file. As a transmitter you may transmit files for as many companies as you need under the one TCC. The information return data will be contained in the file itself. Some service bureaus will transmit files using their TCC, while others will require filers to obtain a TCC of their own.

A TCC used to file Forms 1097, 1098, 1099, 3921, 3922, 5498, and W-2G can be used to submit 1,000 files per year. If the TCC exceeds 1,000 files, an additional TCC can be requested via the IR Application for TCC.

Sec. 1 Information Returns (IR) Application for Transmitter Control Code (TCC) (continued)

.06 Deleted TCC

Your TCC will remain valid if you transmit information returns or request an extension of time to file information returns electronically through the FIRE System. Refer to [Part D. Extension of Time](#). If you don't use your TCC for three consecutive years, your TCC will be deleted. Once your TCC is deleted it cannot be reactivated. You'll need to submit a new IR Application for TCC located on the FIRE webpage.

Sec. 2 Connecting to FIRE System

You must obtain a TCC before you can establish a FIRE Account to transmit files through the FIRE Systems (Production and Test). The system will prompt you to create your User ID, password, 10-digit Personal Identification Number (PIN) and secret phrase. Each user should create their individual FIRE Account and login credentials. Multiple FIRE Accounts can be created under one TCC. Refer to the [FIRE](#) webpage for additional information on account creation. The FIRE Production System and the FIRE Test System are two different sites that don't communicate with each other. If you plan on sending a production file and a test file, you'll need an account on each system.

You must enter your TCC, EIN and legal business name exactly as it appears on your IR Application for TCC. Once you log in to FIRE, your information will fill in automatically when you submit files.

Sec. 2 Connecting to FIRE System (continued)

Uploading Files to FIRE

Filers may upload a file to the FIRE System by taking the following actions:

- After logging in, go to the Main Menu
- Select “Send Information Returns”
- “Submit”

Verify and update company information as appropriate and/or click “Accept”.

The system will display

- Company Name
- Address
- City
- State
- Zip Code
- Telephone #
- Contact
- E-mail Address
- Select one of the following:
 - Original file
 - Replacement file
 - Correction file
 - Test File (This option will only be available on the FIRE Test System at <https://fire.test.irs.gov/>).
- Enter the 10-digit PIN
- “Submit”
- “Browse” to locate the file and open it
- “Upload”

Note: When the upload is complete, the screen will display the total bytes received and display the name of the file just uploaded. We recommend that you print the page for your records. If this page is not displayed on your screen, we probably did not receive the file. To verify, go to “Check File Status” option on the main menu. We received the file if the file name is displayed and the count is equal to ‘0’ and the results indicate, “Not Yet Processed.”

Sec. 2 Connecting to FIRE System (continued)

Checking the Status of Your File

It is the transmitter's responsibility to check the status of submitted files. If you don't receive an email within two days or if you receive an email indicating the file is bad:

- Log into the FIRE System
- Select "Main Menu"
- Select "Check File Status". The default selection to the File Status drop down is, "**All Files.**" When "**All Files**" is selected, a valid date range is required. The date range cannot exceed three months.

Note: During peak filing periods, the time frame for returning file results may be more than two days.

Issuers/Transmitters are strongly recommended to keep a copy of FIRE System file status emails and the associated files of the information returns or be able to reconstruct the data for at least three years from the reporting due date. Refer to **Part A. Sec. 6, .02 Retention Requirements**.

File Status Results:

- **Good** - The filer is finished with this file if the "Count of Payees" is correct. The file is automatically released for IRS processing after ten calendar days unless the filer contacts TSO within this time frame.
- **Bad** - The file has errors. Click on the filename to view the error message(s), fix the errors, and resubmit the file timely as a "replacement" file.
- **Not Yet Processed** - The file has been received, but results aren't available. Check back in a few days.

Sec. 3 Electronic Specifications

.01 FIRE System

The FIRE System is designed exclusively for electronic filing of Forms 1042-S, 1097, 1098, 1099, 3921, 3922, 5498, 8027, 8955-SSA and W-2G. Electronic files are transmitted through the FIRE Production System at <https://fire.irs.gov/>. The electronic filing of information returns is not affiliated with any other IRS electronic filing programs. Filers must obtain separate approval to participate in different programs.

The FIRE Production System does not provide fill-in forms, except for:

- **Form 8809**, Application for Extension of Time to File Information Returns

The FIRE System can accept multiple files for the same type of return. For example, if a company has several branches issuing Forms 1099-INT, it is not necessary to consolidate all the forms into one transmission. Each file may be sent separately. Don't transmit duplicate data.

Electronic reporting of information returns eliminates the need for electronic filers to send paper documents to the IRS. Don't send copies of the paper forms to the IRS for any forms filed electronically. This will result in duplicate filing.

Sec. 3 Electronic Specifications (continued)

.02 FIRE System Internet Security Technical Standards

FIRE System Internet Security Technical Standards are:

- HTTP 1.1 Specification
- TLS 1.2 is implemented using SHA and RSA 1024 bits during the asymmetric handshake

The FIRE Production and Test System server no longer supports Secure Socket Layer (SSL) 3.0 as one of the FIRE System's Internet Security Technical Standards. Transmitters using IE 6.0 or lower as their browser may have problems logging in and connecting to the FIRE System. Follow the steps below to connect and upload a file:

- Go to Tools > Internet Options > Advanced
- Scroll down and find Security
- Uncheck both SSL 2.0 and SSL 3.0
- Check TLS 1.2 and select "Apply"

Sec. 4 Electronic Submissions

.01 Electronic Submissions

The FIRE System is available for electronic submissions 24 hours a day. For dates of availability, refer to the **FIRE** webpage.

Standard ASCII code is required for all files. The time required to transmit files varies depending upon your type of connection to the internet.

The acceptable file size for the FIRE Systems cannot exceed one million records per file. The count is the total of the entire file determined by adding together the T, A, B, C, K and F Records. If the file exceeds the limit, the file will be rejected. We recommend you visit the **FIRE** webpage for the latest system status, updates, and alerts.

When sending electronic files larger than 10,000 records, data compression is encouraged. The time required to transmit a file can be reduced up to 95 percent by using compression.

- WinZip and PKZIP are the only acceptable compression packages. The IRS cannot accept self-extracting zip files or compressed files containing multiple files.

Transmitters may create files using self-assigned file name(s). However, the FIRE System will assign a unique filename. Record the FIRE filename from the "Check File Status" page as it is required when assistance is needed. The FIRE filename consists of:

- Submission type (original, correction, replacement, and test)
- TCC
- Four-digit sequence number. The sequence number will be increased for every file sent.

Sec. 4 Electronic Submissions (continued)

For example, if this is the first Original file for the calendar year and the TCC is 44444, the IRS assigned filename would be ORIG.44444.0001 and so forth, in ascending order.

Prior year data, original, and corrected, must be filed according to the requirements of this publication. Use the record format for the current year when submitting prior year data. Each tax year must be electronically filed in separate transmissions. However, use the actual year designation of the data in field positions 2-5 of the "T", "A", and "B" Records. Transmitter "T" Record Field position 6, Prior Year Data Indicator, must contain a "P." A separate transmission is required for each tax year. See [Part C. Record Format Specifications and Record Layouts](#).

.02 File Definitions

It is important to distinguish between the specific types of files:

Original file – Contains information returns not previously reported to the IRS.

Correction file – Contains corrections for information returns successfully processed by the IRS with a status of "Good" and it has been more than 10 calendar days since the file was transmitted to the IRS, and you then identified an error with the file. Correction files should only contain records that require a correction, not the entire file.

Replacement file – A replacement file is sent when a "Bad" status is received. After the necessary changes have been made, transmit the entire file through the FIRE Production System as a replacement file.

Test file – Contains data formatted to the specifications in Publication 1220 and can only be sent through the FIRE Test System at <https://fire.test.irs.gov/>. **Don't transmit live data in the FIRE Test System.**

.03 Submission Responses

The results of your electronic transmission(s) will be sent to the email address that was provided on the "Verify Your Filing Information" screen within two business days after a file has been submitted. If using email filtering software, configure software to accept email from fire@irs.gov and irs.e-helpmail@irs.gov. Turn off any email auto replies to these email addresses.

Note: Processing delays may occur during peak filing time frames, and you may not get results within two business days. If a file is bad, the transmitter must return to <https://fire.irs.gov/> or <https://fire.test.irs.gov/> to identify the errors. At the main menu, select Check File Status.

If a file is "Bad", make necessary changes and resubmit as a replacement file. You have 60 days from the original transmission date to send a good replacement file.

Note: If an acceptable replacement file is received within 60 days, the transmission date for the original file will be used for penalty determination. Original files submitted after the due date or acceptable replacement files sent beyond the 60 days may result in a late filing penalty.

If the file is good, it is released for mainline processing after 10 calendar days from receipt.

You can contact TSO within the ten-day timeframe to stop processing. They are available Monday through Friday 8:30 a.m. – 5:30 p.m. ET. **Listen to all options before making your selection.**

- 866-455-7438 (toll-free)
- 304-263-8700 (International) (Not toll-free)
- Deaf or hard of hearing customers may call any of our toll-free numbers using their choice of relay service.

Sec. 4 Electronic Submissions (continued)

When you call, you must indicate if you want the file 'Closed', with no replacement file or 'Made Bad' so you can send a replacement file. You'll need your TCC and EIN.

Sec. 5 Test Files

A test file is only required if you're participating in the CF/SF Program for the first time. The submission of a test file is recommended for all new electronic filers to test hardware and software. See [Part B. Sec. 2, Connecting to FIRE System](#).

The test file must consist of a sample of each type of record:

- Transmitter "T" Record
- Use the Test Indicator "T" in field position 28 on the "T" Record
- Issuer "A" Record
- Multiple Payee "B" Records (at least eleven "B" Records per each "A" Record)
- End of Issuer "C" Record
- State Totals "K" Record(s) - if participating in the CF/SF Program
- End of Transmission "F" Record

Note: See [Part C. Record Format Specifications and Record Layouts](#), for record formats.

The IRS will check the file to ensure it meets the specifications outlined in this publication. Current filers may send a test file to ensure the software reflects all required programming changes. However, not all validity, consistency, or math error tests will be conducted. There is a limitation of 125 files per TCC, per year in Trading Partner Test (TPT).

Provide a valid email address on the "Verify Your Filing Information" page. You'll be notified of your file acceptance by email within two days of transmission. When using email filtering software, configure software to accept email from fire@irs.gov and irs.e-helpmail@irs.gov. Turn off any email auto replies to these email addresses.

It is the transmitter's responsibility to check the results of the submission. See [Part B. Sec. 2, Connecting to FIRE System](#).

Note: During peak filing periods, the time frame for returning file results may be more than two days.

The following results will be displayed:

- **Good** - The test file is good for all files that are not testing for the CF/SF Program.
- **Good, Federal/State Reporting** - The file is good for the CF/SF Program.
- **Bad** - The test file contains errors. Click on the filename for a list of the errors.
- **Not Yet Processed** - The file has been received, but results aren't available. Please check back in a few days.

Sec. 6 Common Problems

Item	Issue		Resolution
1	You have not received a file status email.		<p>To receive emails concerning files, processing results, reminders, and notices, set the SPAM filter to receive email from fire@irs.gov and irs.e-helpmail@irs.gov. Turn off any email auto replies to these email addresses. Check the File Status to ensure your information was transmitted.</p> <p>Check “Verify Your Filing Information” page in your FIRE Account to ensure the correct email address is displayed.</p>
2	You don't know the status of your submission.		<p>The results of a file are posted to the FIRE System within two days. If the correct email address was provided on the “Verify Your Filing Information” screen when the file was uploaded, an email will be sent regarding the File Status. If the results in the email indicate “Good” and the “Count of Payees” is correct, the filer is finished with this file. If any other results are received, follow the instructions in the “Check File Status” option. If the file contains errors, get an online listing of the errors. If the file status is good, but the file should not be processed, filers should contact TSO within 10 calendar days from the transmission of the file. You must state if you want the file made bad or closed.</p>
3	You received a file status of “Bad.”		<p>If a file is “Bad”, make necessary changes and resubmit as a replacement file. You have 60 days from the original transmission date to send a good replacement file. Note: If an acceptable replacement file is received within 60 days, the transmission date for the original file will be used for penalty determination. Original files submitted after the due date, or an acceptable replacement file sent beyond the 60 days may result in a late filing penalty.</p>
4	You received an error that more than one file is compressed within the file.		<p>Only compress one file at a time. For example, if there are 10 uncompressed files to send, compress each file separately and send ten separate compressed files.</p>

Sec. 6 Common Problems (continued)

Item	Issue		Resolution
5	You resent your entire file as a correction after only a few changes were made.		Only send those returns that need corrections, not the entire original file. See Part A. Sec. 11, Corrected Returns .
6	You received an error that the file is formatted as EBCDIC.		All files submitted electronically must be in standard ASCII code.
7	You receive a TCC/TIN mismatch error when entering your TCC/TIN combination in your FIRE Account.		Enter the TIN of the company assigned to the TCC and the Firm Legal Name as it appears on the IR Application for TCC.
8	Transmitter sent the wrong file.		<p>Contact TSO Monday through Friday 8:30 a.m. – 5:30 p.m. ET. Listen to all options before making your selection.</p> <ul style="list-style-type: none"> • 866-455-7438 (toll-free) • 304-263-8700 (International) (Not toll-free) • Deaf or hard of hearing customers may call any of our toll-free numbers using their choice of relay service. <p>TSO may be able to stop the file before it is processed.</p>

Sec. 6 Common Problems (continued)

Item	Issue		Resolution
9	You sent a file that is in the "Good" status and is within 10 calendar days from the transmission of the file, and you want to send a different file in place of the previous one.		<p>Contact TSO Monday through Friday 8:30 a.m. - 5:30 p.m. ET to identify options available. TSO may be able to close the file or change the status to "Bad." Listen to all options before making your selection.</p> <ul style="list-style-type: none"> • 866-455-7438 (toll-free) • 304-263-8700 (International) (Not toll-free) • Deaf or hard of hearing customers may call any of our toll-free numbers using their choice of relay service.
10	You sent a file in .PDF format.		All files submitted electronically must be in standard ASCII code. If you have software that is supposed to produce this file, contact the software company to see if their software can produce a file in the proper format.

Sec. 7 Common Formatting Errors

Item	Issue	Resolution
1	"C" Record contains control totals that don't equal the IRS total of "B" Records.	The "C" Record is a summary record for a type of return for a given issuer. The IRS compares the total number of payees and payment amounts in the "B" Records with totals in the "C" Records. The two totals must agree. Don't enter negative amounts except when reporting Forms 1099-B, 1099-OID, or 1099-Q. Money amounts must be numeric and right justified. Unused positions must be zero-filled. Don't use blanks in money amount fields.
2	You identified your file as a correction; however, the data is not coded with a "G" or "C" in position 6.	When a file is submitted as a correction file, there must be a corrected return indicator "G" or "C" in position 6 of the Payee "B" record. See Part A, Sec. 11, Corrected Returns .

Sec. 7 Common Formatting Errors (continued)

Item	Issue	Resolution
3	"A" Record contains missing or invalid TIN in positions 12-20.	The Issuer's TIN reported in positions 12-20 of the "A" Record must be a nine-digit number. Don't enter hyphens. The TIN and the First Issuer Name Line provided in the "A" Record must correspond.
4	"T" Record, "A" Record and/or "B" Record have an incorrect tax year in positions 2-5.	The tax year in the transmitter, issuer, and payee records must reflect the tax year of the information return being reported. For prior tax year data, there must be a "P" in position 6 of the Transmitter "T" Record. This position must be blank for current year.
5	"T" Record has a "T" (for Test) in position 28; however, your file was not sent as a test.	Remove the "T" from position 28 on the "T" record and resubmit as a replacement. Caution: Don't remove the "T" from position 1 of the "T" Record, only from position 28.
6	A percentage of your "B" Records contain missing and/or invalid TINs.	TINs entered in positions 12-20 of the Payee "B" records must consist of nine numeric characters only. Don't enter hyphens. Incorrect formatting of TINs may result in a penalty.
7	A percentage of your Form 1099-R "B" Records have invalid or missing distribution codes.	When transmitting Form 1099-R, there must be a valid Distribution Code(s) in positions 545-546 of the Payee "B" Record(s). For valid codes and combinations, refer to Form 1099-R Distribution Code Chart 2024, located in Part C. If only one distribution code is required, enter in position 545 and position 546 must be blank. A blank in position 545 is not acceptable.
8	"A" Record has an incorrect/invalid type of return and/or amount code(s) in positions 28-45.	The amount codes used in the "A" Record must correspond with the payment amount fields used in the "B" Record(s). The amount codes must be left justified and in ascending order. Unused positions must be blank filled. For example: If the "B" Record(s) show payment amounts in payment amount fields 2, 4, and 7, then the "A" Record must correspond with 2, 4, and 7 in the amount code fields.

Each record must be 750 positions.

Sec. 1 Transmitter “T” Record General Field Descriptions

General Field Descriptions

The Transmitter “T” Record identifies the entity transmitting the electronic file. A replacement file will be requested if the “T” Record is not present. See File Format Diagram located in [Part C. Record Format Specifications and Record Layouts](#).

- Transmitter “T” Record is the first record on each file and is followed by an Issuer “A” Record.
- All records must be a fixed length of 750 positions.
- Don’t use punctuation in the name and address fields.
- The Transmitter “T” Record contains critical information when necessary for the IRS to contact the transmitter.
- For all fields marked “Required,” the transmitter must provide the information described under General Field Description. For those fields not marked “Required,” a transmitter must allow for the field but may be instructed to enter blanks or zeros in the indicated field positions for the indicated length.
- All alpha characters entered in the “T” Record must be upper case, except an email address which may be case sensitive.

Record Name: Transmitter “T” Record

Field Position	Field Title	Length	General Field Description
1	Record Type	1	Required. Enter “T.”
2-5	Payment Year	4	Required. Enter “2024.” If reporting prior year data, report the year which applies (2023, 2022, etc.) and set the Prior Year Data Indicator in field position 6.
6	Prior Year Data Indicator	1	Required. Enter “P” only if reporting prior year data. Otherwise, enter a blank. Don’t enter a “P” if the tax year is 2024. The FIRE System accepts 2014 through 2023 for prior years. You cannot mix tax years within a file.
7-15	Transmitter’s TIN	9	Required. Enter the transmitter’s nine-digit taxpayer identification number (TIN).
16-20	Transmitter Control Code	5	Required. Enter the five-character alphanumeric Transmitter Control Code (TCC) assigned by the IRS.
21-27	Blank	7	Enter blanks.
28	Test File Indicator	1	Required for test files only. Enter a “T” if this is a test file. Otherwise, enter a blank.

Sec. 1 Transmitter “T” Record General Field Descriptions (continued)

Record Name: Transmitter “T” Record (continued)

Field Position	Field Title	Length	General Field Description
29	Foreign Entity Indicator	1	Enter “1” if the transmitter is a foreign entity. If the transmitter is not a foreign entity, enter a blank.
30-69	Transmitter Name	40	Required. Enter the transmitter name. Left justify the information and fill unused positions with blanks.
70-109	Transmitter Name (Continuation)	40	Enter any additional information that may be part of the name. Left justify the information and fill unused positions with blanks.
110-149	Company Name	40	Required. Enter company name associated with the address in field positions 190-229.
150-189	Company Name (Continuation)	40	Enter any additional information that may be part of the company name.
190-229	Company Mailing Address	40	<p>Required. Enter the mailing address associated with the Company Name in field positions 110-149 where correspondence should be sent.</p> <p>For U.S. address, the issuer city, state, and ZIP Code must be reported as a 40-, 2-, and 9-position field, respectively. Filers must adhere to the correct format for the issuer city, state, and ZIP Code.</p> <p>For foreign address, filers may use the issuer’s city, state, and ZIP Code as a continuous 51-position field. Enter information in the following order: city, province or state, postal code, and the name of the country. When reporting a foreign address, the Foreign Entity Indicator in position 29 must contain a “1”.</p>
230-269	Company City	40	Required. Enter the city, town, or post office where correspondence should be sent.
270-271	Company State	2	Required. Enter U.S. Postal Service state abbreviation. Refer to Part A. Sec. 13, Table 2, State & U.S. Territory Abbreviations .
272-280	Company ZIP Code	9	Required. Enter the nine-digit ZIP Code assigned by the U.S. Postal Service. If only the first five digits are known, left justify the information and fill unused positions with blanks.
281-295	Blank	15	Enter blanks.

Sec. 1 Transmitter “T” Record General Field Descriptions (continued)

Record Name: Transmitter “T” Record (continued)

Field Position	Field Title	Length	General Field Description
296-303	Total Number of Payees	8	Enter the total number of Payee “B” Records reported in the file. Right justify the information and fill unused positions with zeros.
304-343	Contact Name	40	Required. Enter the name of the person to contact when problems with the file or transmission are encountered.
344-358	Contact Telephone Number & Extension	15	Required. Enter the telephone number of the person to contact regarding electronic files. Omit hyphens. If no extension is available, left justify the information and fill unused positions with blanks. Example: The IRS telephone number of 866-455-7438 with an extension of 52345 would be 866455743852345.
359-408	Contact Email Address	50	Required if available. Enter the email address of the person to contact regarding electronic files. If no email address is available, enter blanks. Left justify.
409-499	Blank	91	Enter blanks.
500-507	Record Sequence Number	8	Required. Enter the number of the record as it appears within the file. The record sequence number for the “T” Record will always be one (1) since it is the first record on the file and the file can have only one “T” Record. Each record thereafter must be increased by one in ascending numerical sequence, that is, 2, 3, 4, etc. Right justify numbers with leading zeros in the field. For example, the “T” Record sequence number would appear as “00000001” in the field, the first “A” Record would be “00000002,” the first “B” Record, “00000003,” the second “B” Record, “00000004” and so on through the final record of the file, the “F” Record.
508-517	Blank	10	Enter blanks.

Sec. 2 Issuer “A” Record

General Field Descriptions

The second record on the file must be an Issuer “A” Record.

The Issuer “A” Record identifies the person making payments. The issuer will be held responsible for the completeness, accuracy, and timely submission of electronic files. Examples of an Issuer include:

- Recipient of mortgage payments
 - Recipient of student loan interest payments
 - Educational institution
 - Broker
 - Person reporting a real estate transaction
 - Barter exchange
 - Creditor
 - Trustee or issuer of any IRA or MSA plan
 - Lender who acquires an interest in secured property or who has a reason to know the property has been abandoned
- A transmitter may include Payee “B” Records for more than one issuer in a file; however, each group of “B” Records must be preceded by an “A” Record and followed by an End of Issuer “C” Record. A single file may contain different types of returns, but the types of returns cannot be intermingled. A separate “A” Record is required for each issuer and each type of return being reported.
- The number of “A” Records depends on the number of issuers and the different types of returns being reported. Don’t submit separate “A” Records for each payment amount being reported. For example, if an issuer is filing Form 1099-DIV to report Amount Codes 1, 2, and 3, all three amount codes should be reported under one “A” Record, not three separate “A” Records.
- The maximum number of “A” Records allowed in a file is 99,000. All records must be a fixed length of 750 positions. All alpha characters entered in the “A” Record must be upper case.
- For all fields marked “Required,” the transmitter must provide the information described under General Field Description. For those fields not marked “Required,” a transmitter must allow for the field, but may be instructed to enter blanks or zeros in the indicated field position(s) and for the indicated length.

Record Name: Issuer “A” Record

Field Position	Field Title	Length	General Field Description
1	Record Type	1	Required. Enter an "A."
2-5	Payment Year	4	Required. Enter "2024." If reporting prior year data, report the year which applies (2023, 2022, etc.).
6	Combined Federal/ State Filing Program	1	<p>Required for CF/SF Program.</p> <p>Enter "1" if approved and submitting information as part of the CF/SF Program or if submitting a test file to obtain approval for the CF/SF Program. Otherwise, enter a blank.</p> <p>Note 1: If the Issuer "A" Record is coded for CF/SF Program, there must be coding in the Payee "B" Records and the State Totals "K" Records.</p> <p>Note 2: If "1" is entered in this field position, be sure to code the Payee "B" Records with the appropriate state code. Refer to Part A. Sec. 12, Table 1, Participating States and Codes, for further information.</p>
7-11	Blank	5	Enter blanks.
12-20	Issuer Taxpayer Identification Number (TIN)	9	<p>Required. Enter the valid nine-digit taxpayer identification number assigned to the issuer. Don't enter blanks, hyphens, or alpha characters. Filling the field with all zeros, ones, twos, etc., will result in an incorrect TIN.</p> <p>Note: For foreign entities that are not required to have a TIN, this field must be blank; however, the Foreign Entity Indicator, position 52 of the "A" Record, must be set to "1".</p>
21-24	Issuer Name Control	4	Enter the four characters of the name control or enter blanks. See Part E. Exhibit 1, Name Control .
25	Last Filing Indicator	1	Enter "1" if this is the last year this issuer name and TIN will file information returns electronically or on paper. Otherwise, enter a blank.

Field Position	Field Title	Length	General Field Description
174-213	Issuer City	40	Required. If the Transfer Agent Indicator in position 133 is a “1”, enter the city, town, or post office of the transfer agent. Otherwise, enter issuer city, town, or post office city. Don’t enter state and ZIP Code information in this field. Left justify the information and fill unused positions with blanks.
214-215	Issuer State	2	Required. Enter the valid U.S. Postal Service state abbreviation. Refer to Part A, Sec. 13, Table 2, State & U.S. Territory Abbreviations .
216-224	Issuer ZIP Code	9	Required. Enter the valid nine-digit ZIP Code assigned by the U.S. Postal Service. If only the first five digits are known, left justify the information and fill unused positions with blanks. For foreign countries, alpha characters are acceptable if the filer has entered a “1” in “A” Record, field position 52 Foreign Entity Indicator.
225-239	Issuer Telephone Number & Extension	15	Enter the issuer’s telephone number and extension. Omit hyphens. Left justify the information and fill unused positions with blanks.
240-499	Blank	260	Enter blanks
500-507	Record Sequence Number	8	Required. Enter the number of the record as it appears within the file. The record sequence number for the “T” Record will always be “1”, since it is the first record on the file and the file can have only one “T” Record. Each record thereafter must be increased by one in ascending numerical sequence, that is, 2, 3, 4, etc. Right justify numbers with leading zeros in the field. For example, the “T” Record sequence number would appear as “00000001” in the field, the first “A” Record would be “00000002,” the first “B” Record, “00000003,” the second “B” Record, “00000004” and so on until the final record of the file, the “F” Record.
508-748	Blank	241	Enter blanks.
749-750	Blank	2	Enter blanks or carriage return/line feed (CR/LF) characters.

Sec. 3 Payee "B" Record

General Field Descriptions

The "B" Record contains the payment information from information returns.

- The record layout for field positions 1 through 543 is the same for all types of returns.
- Field positions 544 through 750 vary for each type of return to accommodate special fields for individual forms.
- Allow for all 18 Payment Amount Fields. For the fields not used, enter "0".
- All records must be a fixed length of 750 positions.
- All alpha characters must be upper case.
- Don't use decimal points (.) to indicate dollars and cents.

For all fields marked "**Required**," the transmitter must provide the information described under "General Field Description." For those fields not marked "**Required**," the transmitter must allow for the field, but may be instructed to enter blanks or zeros in the indicated field position(s) and for the indicated length.

Sec. 3 Payee “B” Record (continued)

A field is also provided for Special Data Entries. This field may be used to record information required by state or local governments, or for the personal use of the filer. The IRS does not use the data provided in the Special Data Entries Field; therefore, the IRS program does not check the content or format of the data entered in this field. It is the filer’s option to use the Special Data Entries Field.

Following the Special Data Entries Field, payment fields have been allocated for State Income Tax Withheld and Local Income Tax Withheld. These fields are for the convenience of filers. The information will not be used by the IRS.

Adhere to guidelines listed in [Sec.12 Combined Federal/State Filing \(CF/SF\) Program](#) if participating in the program.

Record Name: Issuer “B” Record (continued)

Field Position	Field Title	Length		General Field Description
21-40	Issuers Account Number for Payee		20	<p>Required. If submitting more than one information return of the same type for the same payee. Enter any number assigned by the issuer to the payee that can be used by the IRS to distinguish between information returns. This number must be unique for each information return of the same type for the same payee. If a payee has more than one reporting of the same document type, it is vital that each reporting have a unique account number. For example, if an issuer has three separate pension distributions for the same payee and three separate Forms 1099-R are filed; three separate unique account numbers are required. A payee’s account number may be given a unique sequencing number, such as 01, 02, or A, B, etc., to differentiate each reported information return. Don’t use the payee’s TIN since this will not make each record unique. This information is critical when corrections are filed. This number will be provided with the backup withholding notification and may be helpful in identifying the branch or subsidiary reporting the transaction. The account number can be any combination of alpha, numeric, or special characters. If fewer than 20 characters are used, filers may either left or right justify, filling the remaining positions with blanks.</p> <p>Forms 1099-LS and 1099-SB - use this field to report “Policy Number.”</p>
41-44	Issuers Office Code		4	Enter the office code of the issuer. Otherwise, enter blanks. For issuers with multiple locations, this field may be used to identify the location of the office submitting the information returns. This code will also appear on backup withholding notices.
45-54	Blank		10	Enter blanks.

Record Name: Issuer “B” Record (continued)

Field Position	Field Title	Length	General Field Description
Payment Amount Fields (Must be numeric)			Required. Filers should allow for all payment amounts. For those not used, enter zeros. Each payment field must contain 12 numeric characters. Each payment amount must contain U.S. dollars and cents. The right-most two positions represent cents in the payment amount fields. Don’t enter dollar signs, commas, decimal points, or negative payments, except those items that reflect a loss on Form 1099-B, 1099-OID, or 1099-Q. Positive and negative amounts are indicated by placing a “+” (plus) or “-” (minus) sign in the left-most position of the payment amount field. A negative over punch in the unit’s position may be used instead of a minus sign, to indicate a negative amount. If a plus sign, minus sign, or negative overpunch is not used, the number is assumed to be positive. Negative over punch cannot be used in PC created files. Right justify payment amounts and fill unused positions with zeros.

Caution: If payment amounts exceed the 12 field positions allotted, a separate Payee “B” Record must be submitted for the remainder. The files cannot be exactly the same to avoid duplicate filing discrepancies. For example: For Form 1099-K reporting 12,000,000,000.00, the first “B” record would show 8,000,000,000.00 and the second “B” record would show 4,000,000,000.00. One substitute Form 1099-K may be sent to the recipient aggregating the multiple Forms 1099-K.

55-66	Payment Amount 1*	12	The amount reported in this field represents payments for Amount Code 1 in the “A” Record.
67-78	Payment Amount 2*	12	The amount reported in this field represents payments for Amount Code 2 in the “A” Record.
79-90	Payment Amount 3*	12	The amount reported in this field represents payments for Amount Code 3 in the “A” Record.
91-102	Payment Amount 4*	12	The amount reported in this field represents payments for Amount Code 4 in the “A” Record.
103-114	Payment Amount 5*	12	The amount reported in this field represents payments for Amount Code 5 in the “A” Record.
115-126	Payment Amount 6*	12	The amount reported in this field represents payments for Amount Code 6 in the “A” Record.
127-138	Payment Amount 7*	12	The amount reported in this field represents payments for Amount Code 7 in the “A” Record.
139-150	Payment Amount 8*	12	The amount reported in this field represents payments for Amount Code 8 in the “A” Record.
151-162	Payment Amount 9*	12	The amount reported in this field represents payments for Amount Code 9 in the “A” Record.

Record Name: Issuer “B” Record (continued)

Field Position	Field Title	Length	General Field Description
163-174	Payment Amount A*	12	The amount reported in this field represents payments for Amount Code A in the “A” Record.
175-186	Payment Amount B*	12	The amount reported in this field represents payments for Amount Code B in the “A” Record.
187-198	Payment Amount C*	12	The amount reported in this field represents payments for Amount Code C in the “A” Record.
199-210	Payment Amount D*	12	The amount reported in this field represents payments for Amount Code D in the “A” Record.
211-222	Payment Amount E*	12	The amount reported in this field represents payments for Amount Code E in the “A” Record.

235-246	Payment Amount G*	12	The amount reported in this field represents payments for Amount Code G in the “A” Record.
247-258	Payment Amount H*	12	The amount reported in this field represents payments for Amount Code H in the “A” Record.
259-270	Payment Amount J*	12	The amount reported in this field represents payments for Amount Code J in the “A” Record.
271-286	Blank	16	Enter Blanks
*Note: If there are discrepancies between the payment amount fields and the boxes on the paper forms, the instructions in this publication must be followed for electronic filing.			
287	Foreign Country Indicator	1	If the address of the payee is in a foreign country, enter a “1” in this field. Otherwise, enter blank. When filers use the foreign country indicator, they may use a free format for the payee city, state, and ZIP Code. Enter information in the following order: city, province or state, postal code, and the name of the country. Don’t enter address information in the First or Second Payee Name Lines.

Record Name: Issuer “B” Record (continued)

Field Position	Field Title	Length	General Field Description
288-327	First Payee Name Line	40	<p>Required. Enter the name of the payee (preferably last name first) whose taxpayer identification number (TIN) was provided in positions 12-20 of the Payee “B” Record. Left justify the information and fill unused positions with blanks. If more space is required for the name, use the Second Payee Name Line Field. If reporting information for a sole proprietor, the individual’s name must always be present on the First Payee Name Line. The use of the business name is optional in the Second Payee Name Line Field. End the First Payee Name Line with a full word. Extraneous words, titles, and special characters (that is, Mr., Mrs., Dr., period, apostrophe) should be removed from the Payee Name Lines. A hyphen (-) and an ampersand (&) are the only acceptable special characters for First and Second Payee Name Lines.</p> <p>Note: If a filer is required to report payments made through Foreign Intermediaries and Foreign Flow-Through Entities on Form 1099, see the General Instructions for Certain Information Returns for reporting instructions.</p>
328-367	Second Payee Name Line	40	<p>If there are multiple payees (for example, partners, joint owners, or spouses), use this field for those names not associated with the TIN provided in positions 12-20 of the “B” Record, or if not enough space was provided in the First Payee Name Line continue the name in this field. Don’t enter address information. It is important that filers provide as much payee information to the IRS as possible to identify the payee associated with the TIN. See the Note under the First Payee Name Line. Left justify the information and fill unused positions with blanks.</p>
368-407	Payee Mailing Address	40	<p>Required. Enter the mailing address of the payee. The street address should include number, street, apartment or suite number, or P.O. Box if mail is not delivered to a street address. Left justify the information and fill unused positions with blanks. Don’t enter data other than the payee’s mailing address.</p>
408-447	Blank	40	Enter blanks.
448-487	Payee City	40	<p>Required. Enter the city, town or post office. Enter APO or FPO if applicable. Don’t enter state and ZIP Code information in this field. Left justify the information and fill unused positions with blanks.</p>

Field Position	Field Title	Length	General Field Description
488-489	Payee State	2	Required. Enter the valid U.S. Postal Service state abbreviations for states or the appropriate postal identifier (AA, AE, or AP). Refer to Part A. Sec.13, Table 2, State & U.S. Territory Abbreviations.
490-498	Payee ZIP Code	9	Required. Enter the valid ZIP Code (nine-digit or five-digit) assigned by the U.S. Postal Service. For foreign countries, alpha characters are acceptable if the filer has entered a “1” in the Foreign Country Indicator, located in position 287 of the “B” Record. If only the first five digits are known, left justify the information and fill the unused positions with blanks.
499	Blank	1	Enter blank.
500-507	Record Sequence Number	8	Required. Enter the number of the record as it appears within the file. The record sequence number for the “T” Record will always be 1 since it is the first record on the file and the file can have only one “T” Record in a file. Each record, thereafter, must be increased by one in ascending numerical sequence, that is, 2, 3, 4, etc. Right justify numbers with leading zeros in the field. For example, the “T” Record sequence number would appear as “00000001” in the field, the first “A” Record would be “00000002,” the first “B” Record, “00000003,” the second “B” Record, “00000004”, and so on until the final record of the file, the “F” Record.

*If reporting a traditional IRA, SEP, or SIMPLE distribution or a Roth conversion, use the IRA/SEP/SIMPLE Indicator of “1” in position 548 of the Payee “B” Record. **Note:** The trustee of the first IRA must report the recharacterization as a distribution on Form 1099-R (and the original contribution and its character on Form 5498).

547	Taxable Amount Not Determined Indicator	1	Enter “1” only if the taxable amount of the payment entered for Payment Amount Field 1 (Gross distribution) of the “B” Record cannot be computed. Otherwise, enter a blank. (If the Taxable Amount Not Determined Indicator is used, enter “0s” in Payment Amount Field 2 of the Payee “B” Record.) Please make every effort to compute the taxable amount.	
548	IRA/SEP/SIMPLE Indicator	1	Enter “1” for a traditional IRA, SEP, or SIMPLE distribution or Roth conversion. Otherwise, enter a blank. If the IRA/SEP/SIMPLE Indicator is used, enter the amount of the Roth conversion or distribution in Payment Amount Field A of the Payee “B” Record. Don’t use the indicator for a distribution from a Roth or for an IRA recharacterization. Note: For Form 1099-R, generally, report the Roth conversion or total amount distributed from a traditional IRA, SEP, or SIMPLE in Payment Amount Field A (traditional IRA/SEP/SIMPLE distribution or Roth conversion), as well as Payment Amount Field 1 (Gross Distribution) of the “B” Record. Refer to Instructions for Forms 1099-R and 5498 for exceptions (Box 2a instructions).

549	Total Distribution Indicator	1	Enter a “1” only if the payment shown for Distribution Amount Code 1 is a total distribution that closed out the account. Otherwise, enter a blank. Note: A total distribution is one or more distributions within one tax year in which the entire balance of the account is distributed. Any distribution that does not meet this definition is not a total distribution.
550-551	Percentage of Total Distribution	2	Use this field when reporting a total distribution to more than one person, such as when a participant is deceased, and an issuer distributes to two or more beneficiaries. Therefore, if the percentage is 100, leave this field blank. If the percentage is a fraction, round off to the nearest whole number (for example, 10.4 percent will be 10 percent; 10.5 percent will be 11 percent). Enter the percentage received by the person whose TIN is included in positions 12-20 of the “B” Record. This field must be right justified, and unused positions must be zero-filled. If not applicable, enter blanks. Filers aren't required to enter this information for any IRA distribution or for direct rollovers.
552-555	First Year of Designated Roth Contribution	4	Enter the first year a designated Roth contribution was made in YYYY format. If the date is unavailable, enter blanks.
556	FATCA Filing Requirement Indicator	1	Enter "1" if there is a FATCA Filing Requirement. Otherwise, enter a blank.
557-564	Date of Payment	8	Enter date of payment in YYYYMMDD format (for example, January 5, 2024, would be 20240105). Don't enter hyphens or slashes.
565-662	Blank	98	Enter blanks.
663-722	Special Data Entries	60	This portion of the “B” Record may be used to record information for state or local government reporting or for the filer's own purposes. Issuers should contact the state or local revenue departments for filing requirements. If this field is not used, enter blanks.
723-734	State Income Tax Withheld	12	State income tax withheld is for the convenience of filers. This information does not need to be reported to the IRS. If not reporting state tax withheld, this field may be used as a continuation of the Special Data Entries Field. The payment amount must be right justified, and unused positions must be zero-filled.

Sec. 4 End of Issuer “C” Record

General Field Descriptions

The End of Issuers “C” Record consists of the total number of payees and the totals of the payment amount fields filed for each issuer and/or particular type of return. The “C” Record must follow the last “B” Record for each type of return for each issuer. For each “A” Record and group of “B” Records on the file, there must be a corresponding “C” Record.

The End of Issuer “C” Record is a fixed length of 750 positions. The control fields are each 18 positions in length.

Record Name: End of Issuer “C” Record

Field Position	Field Title	Length	General Field Description
1	Record Type	1	Required. Enter “C.”
2-9	Number of Payees	8	Required. Enter the total number of “B” Records covered by the preceding “A” Record. Right justify the information and fill unused positions with zeros.
10-15	Blank	6	Enter blanks.
16-33	Control Total 1	18	Required. Accumulate totals of any payment amount fields in the “B” Records into the appropriate control total fields of the “C” Record. Control totals must be right justified and unused control total fields zero-filled. All control total fields are 18 positions in length. Each payment amount must contain U.S. dollars and cents. The right-most two positions represent cents in the payment amount fields. Don’t enter dollar signs, commas, decimal points, or negative payments, except those items that reflect a loss on Form 1099-B, 1099-OID, or 1099-Q. Positive and negative amounts are indicated by placing a “+” (plus) or “-” (minus) sign in the left-most position of the payment amount field.

Sec. 5 State Totals “K” Record

General Field Descriptions

The State Totals “K” Record is a summary for a given issuer and a given state and used only when state reporting approval has been granted. Refer to [Part A. Sec. 12, Combined Federal/State Filing \(CF/SF\) Program](#).

Submit a separate “K” Record for each state being reported. The “K” Record is a fixed length of 750 positions. The control total fields are each 18 positions in length.

The “K” Record contains the total number of payees and the total of the payment amount fields filed by a given issuer for a given state. The “K” Record(s) must be written after the “C” Record for the related “A” Record. Refer to Part C, File Format Diagram. Example: If an issuer used Amount Codes 1, 3, and 6 in the “A” Record, the totals from the “B” Records coded for this state would appear in Control Totals 1, 3, and 6 of the “K” Record.

Extension of Time

INTENTIONALLY LEFT BLANK

Sec. 1 Extension of Time

.01 Application for Extension of Time to File Information Returns (30-day automatic)

An application for extension of time to file information returns covered by **Form 8809** must be filed by the due date of the return for which the extension is being requested. A separate extension application is required for each issuer/filer.

For Form W-2 and Form 1099-NEC reporting Nonemployee Compensation, filers can only request a non-automatic extension of time, which must be filed on paper Form 8809. An automatic 30-day extension is not available. Treasury Decision (TD) 9838.

The IRS encourages the issuer/filer community to utilize electronic filing via the FIRE production system (options listed below) in lieu of the paper Form 8809. There are three methods for filing a request for an extension of time to file information returns:

Method	How To	Notification
Electronic File Transmission Note: A TCC is required. Refer to Part B. Sec. 1, Information Returns (IR) Application for Transmitter Control Code (TCC) .	A request for an extension of time to file information returns may be filed electronically by transmitting an electronic extension file. Files must be formatted based on the Extension of Time Record Layout. Scanned or PDF documents will not be accepted. Note: This option cannot be used to request non-automatic extensions for Forms W-2 or Form 1099-NEC, and additional 30-day extensions. Refer to Form 8809 Instructions .	Transmitters requesting an extension of time via an electronic file will receive the file status results online.
Online submission of Extension of Time to File Information Returns	Fill-in Form 8809 may be completed online via the FIRE Production System at https://fire.irs.gov/ . From the Main Menu click “Extension of Time Request” and then click “Fill-in Extension Form.” To complete the submission, enter your valid 10-digit PIN. Refer to Part B. Sec. 2, Connecting to FIRE System . Note: This option cannot be used to request non-automatic extensions for Forms W-2 or Form 1099-NEC, and additional 30-day extensions. Refer to Form 8809 Instructions .	Forms 8809 completed online receive an instant acknowledgement on screen if forms are completed properly and timely.

Sec. 1 Extension of Time (continued)

Method	How To	Notification
Paper submissions of Form 8809, Application for Extension of Time to File Information Returns	<p>Form 8809 is available at irs.gov/Form8809</p> <ul style="list-style-type: none">• Extension requests submitted on an obsolete Form 8809 will not be accepted.• Mailing address: Department of the Treasury Internal Revenue Service Ogden, UT 84201-0209• Faxing is no longer an option.	Approval letters will not be issued for automatic and additional 30-day extension requests and non-automatic extension requests. Issuer/filer will receive incomplete or denial letters when applicable.

Electronic file processing results will be sent via email if a valid email address was provided on the “Verify Your Filing Information” screen. If you’re using email filtering software, configure software to accept email from fire@irs.gov and irs.e-helpmail@irs.gov. Turn off any email auto replies to these email addresses.

If the request for an extension of time to file an information return is received beyond the due date of the information return, the request will be denied. For more information on extension requests and requesting an additional extension of time, see [Form 8809](#), Application for Extension of Time to File Information Returns.

You may request an extension of time to furnish the statements by faxing a [Form 15397](#), Application for Extension of Time to Furnish Recipient Statements to:

Internal Revenue Service
Technical Services Operation
Attn: Extension of Time Coordinator
Fax: 877-477-0572 (International: 304-579-4105)

Your request must be received no later than the date the statements are due to the recipients. If approved, an extension will allow a maximum of 30 extra days to furnish the recipient statements.

To create the file used to submit extensions of time via electronic file transmission method, the transmitter must have an active TCC and submit files containing only one TCC. A TCC used to request an extension of time to file can only be used to submit 210 files per year. If the TCC exceeds 210 files, an additional TCC can be requested via the IR Application for TCC.

Extension of Time requests submitted through the FIRE System (Production) will require the entry of your FIRE Account PIN.

Note: Don’t electronically transmit tax year 2024 extension requests until the FIRE Production System is available. For dates of availability, refer to the [FIRE](#) webpage.

Exhibits

INTENTIONALLY LEFT BLANK

Exhibit 1 Name Control

The “B” record includes a field in the payee records titled, “Name Control” in which the first four characters of the payee’s last name are to be entered by the filer. If filers are unable to determine the first four characters of the last name, the Name Control Field may be left blank.

It is important to submit the “B” record with an accurate Name Control as it facilitates the identification of the payee within the IRS programs. The guidelines below are broken into organization type.

Individuals

A name control for an individual is generally the first four characters of the last name on the information return.

- The name control consists of four alpha and/or numeric characters.
- The hyphen (-) or a blank space are the only special characters allowed in the name control. These characters cannot be in the first position of the name control.
- The name control can have less, but no more than four characters. Blanks may be present only as the last three positions of the name control.
- If an individual has a hyphenated last name, the name control is the first four characters from the first of the two last names.
- For joint returns, regardless of whether the payees use the same or different last names, the name control is the first four characters of the primary payee’s last name.

Examples – Individuals	
Name	Name Control
Ralph <u>Teak</u>	TEAK
Dorothy <u>Willow</u>	WILL
Joe <u>McCedar</u>	MCCE
Brandy <u>Cedar</u> -Hawthorn	CEDA
Victoria <u>Windsor</u> -Maple	WIND
Joseph <u>Ash</u> & Linda Birch	ASH
Edward & Joan <u>Maple</u>	MAPL

Exhibit 1 Name Control (continued)

Sole Proprietor

- A sole proprietor must always use his/her individual name as the legal name of the business for IRS purposes.
- The name control consists of four alpha and/or numeric characters.
- The name control can have less, but no more than four characters.
- The hyphen (-) or a blank space are the only special characters allowed in the name control. These characters cannot be in the first position of the name control.
- When the taxpayer has a true name and a trade name, the name control is the first four characters of the individual's last name.
- When an individual's two last names are hyphenated, the name control is the first four characters of the first last name.

Examples – Sole Proprietor		
Name	Name Control	Comment
Arthur P. Aspen Trade Name: Sunshine Restaurant	ASPE	The name control for a sole proprietor's name is the first four significant characters of the last name.
Maiden Name: Jane Smith Married Name: Jane Smith Jones	JONE	When two last names are used but are not hyphenated, the name control is the first four characters of the second last name.
Jane Smith-Jones	SMIT	
Elena de la Rosa	DELA	The Spanish phrases "de", "De", "del", and "de la" are part of the name control.
Juan Garza Morales	GARZ	For Spanish names, when an individual has two last names, the name control is the first four characters of the first last name.
Maria Lopez Moreno	LOPE	
Sunny Ming Lo	LO	For last names that have only two letters the last two spaces will be "blank." Blanks may be present only as the last three positions of the name control.
Kim Van Nguyen	NGUY	Vietnamese names will often have a middle name of Van (male) or Thi (female).

Exhibit 1 Name Control (continued)

Partnerships

The name control for a partnership will usually result in the following order of selection:

1. For businesses “doing business as” (dba) or with a trade name, use the first four characters of the dba or trade name.
2. If there is no business or trade name, use the first four characters of the partnership name (even if it is an individual’s name, such as in a law firm partnership).
3. Online receipt of EINs generates separate rules for the name control of partnerships.
4. Whether received online or via paper, if the first word is “The,” disregard it unless “The” is followed by only one other word.
5. If the EIN was assigned online (the EIN will begin with one of the following two digits: 20, 26, 27, 45, 46, 47, 81, 82, 83, 84, 85 or 86), then the name control for a partnership is developed using the first four characters of the primary name line.
6. If the first two digits of the EIN are other than 20, 26, 27, 45, 46, 47, 81, 82, 83, 84, 85 or 86 the name control for a partnership result from the trade or business name of the partnership. If there is no trade or business name, a name control results from the first four letters of a partnership name. In the case of a list of partners followed by the word partnership or an abbreviation thereof, use the last name of the first partner on the original **Form SS-4**, Application for Employer Identification Number.

Examples – Partnerships

Corporations

The name control for a corporation is the first four significant characters of the corporate name.

Examples – Corporations		
Name	Name Control	Comment
The Meadowlark Company	MEAD	Omit the word “The” when followed by more than one word.
The Flamingo	THEF	Include the word “The” in the name control when followed by only one word.
George Giraffe PSC	GEOR	Corporate name control rules apply if an individual name contains the abbreviations PC (Professional Corporation), SC (Small Corporation), PA (Professional Association), PS (Professional Service), or PSC (Personal Service Corporation).
Kathryn Canary Memorial Foundation	KATH	When the organization name contains the words “Fund” or “Foundation”, corporate name control rules apply.
Barbara J. Zinnia ZZ Grain	ZZGR	When an individual name and a corporate name appear, the name control is the first four characters of the corporation name.

Exhibit 1 Name Control (continued)

Estates, Trusts, and Fiduciaries

The name control for estates is the first four characters of the last name of the decedent. The last name of the decedent must have the word "Estate" after the first four characters in the primary name line.

The name control for trusts and fiduciaries results in the following:

1. Name controls for individual trusts are created from the first four characters of the individual's last name.
2. For corporations set up as trusts, use the first four characters of the corporate name.
3. There are separate rules for the name control of trusts, depending on whether the EIN is an online assignment.
4. If the EIN is assigned online (the EIN will begin with one of the following two digits: 20, 26, 27, 45, 46, 47, 81, 82, 83, 84, 85 or 86), then the name control is developed using the first four characters of the first name on the primary name line. Ignore leading phrases such as "Trust for" or "Irrevocable Trust."
5. If the first two digits of the EIN are other than 20, 26, 27, 45, 46, 47, 81, 82, 83, 84, 85 or 86, then the name control for a trust or fiduciary account results from the name of the person in whose name the trust or fiduciary account is established.

Examples - Estates, Trusts, and Fiduciaries	
Name	Name Control
Howard J. Smith Dec'd Howard J Smith, Estate	SMIT
Howard J. Smith Dec'd Howard J Smith, Estate (EIN assigned online)	HOWA

Exhibit 1 Name Control (continued)

Other Organizations

Compliance with the following will facilitate the computer programs in identifying the correct name control:

1. The only organization, which you will always abbreviate, is Parent Teachers Association (PTA). The name control will be "PTA" plus the first letter of the name of the state in which the PTA is located.
2. The name control for a local or post number is the first four characters of the national title.
3. Use the name control of the national organization name if there is a Group Exemption Number (GEN).
4. For churches and their subordinates (for example nursing homes, hospitals), the name control consists of the first four characters of the legal name of the church or subordinate.
5. If the organization's name indicates a political organization, use the individual's name as the name control.
6. The words Kabushiki Kaisha or Gaisha are the Japanese translation of the words "stock company" or "corporation." Therefore, if these words appear in a name line, these words will move to the end of the name where the word corporation" would normally appear.
