Objective

To be challenged creatively and technically through a new work experience as an interactive designer-developer.

Experience

Independent Consultant *May 2009 – present*

Working as an independent web and print consultant for a variety of businesses including Chambers of Commerce, manufacturing and financial companies. Working mostly by referral from existing and previous clients such as the Miami Beach Chamber of Commerce, ChamberMaster, and others.

Senior Interactive Designer *ChamberMaster July 2001 - May 2009*

Responsible for designing new client web sites, internal web sites, print marketing and interface design. Helped to start the company in 2001 and worked as the senior web site designer and front-end developer for eight years. Was responsible toward the end of my employment for hiring and training new designers to take my place. I managed over 500 client web sites that were integrated with our software, mostly Chambers of Commerce. We became the leading provider of on-demand Chamber of Commerce software in the United States during my employment.

Senior Web Designer *June 1999 - July 2001*

award (IAWD).

Education

MSB-Globe College - Digital Communications and Multimedia

A two-year multimedia degree program finished in one year. Focus on interactive design and development. Worked as a teacher's assistant for LINGO tutoring (Macromedia Director) and for Advanced Photoshop.

Minneapolis, MN *September 1998 - May 1999*

University of Minnesota - BFA, Painting

Finished on the Dean's List after my thesis exhibit at the Katherine E Nash Gallery. I taught art for a year afterwards in downtown Minneapolis at the Abraham Lincoln School for New Americans before going back to school for Multimedia.

Minneapolis, MN *September 1995 - May 1997*

Central Lakes College - Associates

Finished a two-year degree in 1-1/2 years. Was awarded the Outstanding Achievement in the Visual Arts award. Transferred to the BFA program at the University of Minnesota afterwards.

Brainerd, MN *January 1993 - May 1995*
